I am a fresh graduate in Information Systems with hands-on experience in software development through internships and real-world projects. I have experience working with front-end technologies such as React.js, Vue.js, Next.js, Nuxt.js, TypeScript, and TailwindCSS, as well as backend technologies including Python, FastAPI, PHP, Laravel, MySQL, and PostgreSQL. My experience includes developing enterprise applications, chatbot systems, API integrations, and interactive dashboards. I am passionate about building efficient and scalable software solutions and eager to contribute to innovative engineering teams while continuously expanding my technical expertise.

EDUCATION

Information System

Aug 2022 - Aug 2026

Brawijaya University

GPA: 3.80

- Maintained a GPA of 3.80/4.00 over eight semesters, with coursework focused on computer science, information systems, and business concepts.
- Worked as a Student Employee Web Developer at the Information Systems Laboratory, Faculty of Computer Science, contributing to web-based system development.
- Served as a Practicum Teaching Assistant for the Database Administration course, supporting students in database tools, security, backup and recovery, concurrency, and high availability concepts.
- Actively participated in student organizations, including KBMDSI as a Frontend Web Developer, POROS as a Frontend Web and Internal Division member, and RAION as an Apps and Internal Programmer.
- Developed practical skills in web development, database administration, teamwork, communication, and leadership through academic and organizational roles.

SKILLS

Tech Stack: HTML, CSS, JavaScript, TypeScript, React.js, Vue.js, Next.js, Nuxt.js, Tailwind CSS, Python, FastAPI, PHP, Laravel, PostgreSQL, MySQL
